ABOUT THIS GUIDE

This Prospectus has been developed to assist Cruise Lines, Ground Handlers and Tour Operators with the abundance of experiences, tours and dining opportunities across the island to assist you to develop Shore Ex touring to better meet your customers needs. It will act as an introduction to the products available, which can be contracted to meet your needs. The information is accurate as from April 2025.

Penneshaw on Kangaroo Island is an anchorage with tendering infrastructure available within the wharf area.

The SeaLink ferries use the wharf area, but have a separate mooring facility than that of the tenders. There is a terminal at the wharf for the use of SeaLink passengers, however an area under the terminal can be used for Shore Ex operations.

The Industry provides a Welcome Program to visitors arriving to Penneshaw, where they will be provided with information and assistance. The town centre is approximately 5 minute walk from the wharf.
